
Project:

Creating fast working landing & sales page, based on a template which is already given

1. In the attached PDF file you will find the complete content with its design to just make a Landing page and a Sales page out of it
2. The total amount of pages will be 3:
 - 2.1 Landing Page – content and design in the first page of the PDF file
 - 2.2 Sales Page – content and design from page 2 to 7 of the PDF file
 - 2.2.1. This Sales Page is a complete one-pager so by scrolling down the visitor should be able to read in one flow
 - 2.3 Check-Out / payment form –as a pop up window is page 8 of the PDF file
3. We got all the icons and symbols and they will be sent as well in a zip file to you once requested
4. All the buttons have to be shaking or bouncing buttons for CTA call to action
5. On checkout page there are some

required fields

Anschrift:

Vorname	Nachname	Gutschein-Code	email-aus-session@mail.com
Strasse, Hausnummer			
PLZ	Ort		

drop down menus

Abo auswählen:

1,50€ / Monat | 6 Monate gratis | Dauer: 24 Monate (statt 36,00€ nur 27€) ▼

check boxes

Zahlungsmethode wählen:

<input type="radio"/> PayPal	<input type="radio"/> SOFORT ÜBERWEISUNG
<input type="radio"/> VISA	<input type="radio"/> amazon payments
<input type="radio"/> Vorkasse / Überweisung	

- ☐ Ja, ich möchte **KOSTENLOS** eine Installationsanleitung als Video und PDF
- ☐ Ja, ich möchte das **Bonus-Geschenk** „MS Office Profi-Tipps“ (statt 7,95€ >> 0,00€)

scarcity counter 🔥 473 von 500 Gutscheine bereits eingelöst!

6. Button Links

6.1 By clicking on first button in landing page the visitor will be related to the sales page

6.2 By clicking on any button in Sales Page the check-out window will pop up so the visitor can finish purchase

6.3 By clicking on the button in check-out window the purchase will be finished by sending the order to the seller

It is mandatory that:

- the Landing, Sales & check-out pages are designed as per our PDF file and the buttons and links working correctly
- the speed of the page is high on mobile and on desktop on all devices
- pages are responsive by ensuring above-the-fold rule

***** END *****
